 - Command Safety Assessment
 - Maintenance Climate Assessment
- Hazreps
- Friday Funnies
- Hurricane Preparedness
- Safety Pro of the Month
 - FLOC
- Human Factors Councils
- Pre-mishap Plan Training

Beach Safety

- **Never turn your back on the ocean**
- **Swim at beaches with lifeguards**
- **Watch children carefully. Hold on to the younger ones.**
- **Watch the surf for at least 15 minutes before entering the water**
- **Never surf or bodyboard in big waves unless you are an expert**
- **Never swim alone**
- **Don't dive into unknown water or into shallow breaking waves**
- **If caught in a rip, swim parallel to the shore.**
- **Rely on your swimming ability rather than a flotation device**

If in doubt, just stay out!

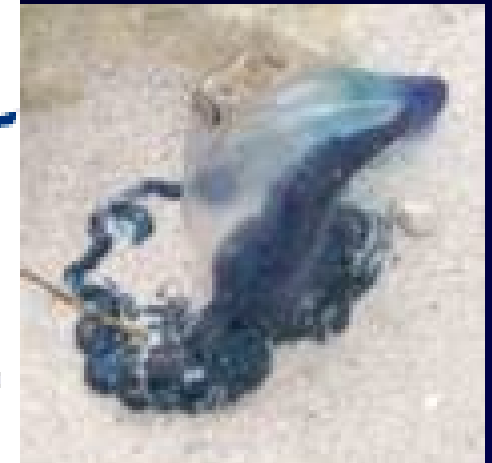

Portuguese man-of-war

- **Color:** Purplish-blue
- **Usual size:** Float to 2 inches; tentacles to 30 feet.
- **Location:** Windward beaches during tradewinds; leeward beaches during Kona winds
- **Treatment for sting:** Pluck off; rinse; ice for pain.

Box jellyfish

- **Color:** Clear, nearly transparent.
- **Usual size:** 1 to 3 inches tall; tentacles to 2 feet long.
- **Location:** Leeward beaches 8 to 10 days after full moon. Occasional strays at other times.
- **Treatment for sting:** Douse with vinegar; rinse; ice for pain.
